FISCAL IMPACT STATEMENT

LS 6112

BILL NUMBER: SB 52

NOTE PREPARED: Nov 14, 2003

BILL AMENDED:

SUBJECT: Disposal of Contaminated Soil.

FIRST AUTHOR: Sen. Meeks C

FIRST SPONSOR:

BILL STATUS: As Introduced

**FUNDS AFFECTED: X GENERAL
DEDICATED
FEDERAL**

IMPACT: State

Summary of Legislation: This bill requires approval by the county plan commission or county executive for the movement of soil contaminated with petroleum to a site in the county from a different county.

Effective Date: July 1, 2004.

Explanation of State Expenditures: This bill requires the Department of Environmental Management (Department) to issue a notice to the county plan commission or county executive of a county to which the Department plans to move soil contaminated with petroleum for treatment or disposal. This bill only affects those movements of contaminated soil that are planned according to an order or agreed order, that goes through the State Clean-up Program, as issued by the Commissioner of the Department.

The Department estimates it moves contaminated soil from one county site to another county at a rate of approximately seven sites per year. Having to issue notices as required by this proposal would have a minimal fiscal impact on the Department.
